

**Did you know that  
you can export  
wikis?**

To do so, simply click  
on the **“Print All”**  
link inside the course  
or community wiki.  
Then, print or save  
the file to your  
computer.

### **It's Official**

**Y**ou've seen the new name—you've seen the new logo. Now, Scholar360 is pleased to announce that we are officially **Edvance360**. We are very excited about this change. This change reflects our growing services to non-traditional educational institutions, such as professional and career schools as well as commercial training programs and societies. You will see our new logo, website, and other marketing materials in the upcoming months. To view our new website, visit [www.edvance360.com](http://www.edvance360.com).

### **Same Great Company**

Other than the name and logo, nothing has changed. We're still the same great company dedicated to the same commitments.

If you have any questions regarding the change, contact Cathy Garland at [cathy.garland@edvance360.com](mailto:cathy.garland@edvance360.com).

---

## **New Features**

**Mailbox Update:** Users will now have the option of replying to all recipients, adding contact groups, customizing an email signature, marking messages as urgent, attaching multiple files to a message, and more.

**Common Cartridge:** With Common Cartridge, users will be able to use learning objects created by publishers or exports from other LMS vendors to auto-populate resources, course lessons, tests, discussions, HTML pages etc.

**Student Calendar:** The student calendar now displays any upcoming tests, Dropbox assignments due, and lesson items due for students. This populates their current Weekly Calendar on their Home Page

as well as their Personal Calendar. Start dates or due dates are required in order for these items to display on a student's calendar. Open tests or open Drop-boxes will not show on the calendar.

**Note:** We have received a number of feature requests this fall and we appreciate all the great feedback. There is still more to come!

For more information regarding new features or to schedule training, please contact Cathy Garland at [cathy.garland@edvance360.com](mailto:cathy.garland@edvance360.com) or 866-458-0360. Release notes and a recording of Edvance360 training for the new features are now available. Please contact us at [info@edvance360.com](mailto:info@edvance360.com) to receive a copy of the notes.

### SIS Integration

In the first quarter 2010, we will release some new updates to Edvance360 that will enable clients to better integrate Edvance360 with their SIS (Student Information Systems).

If you would like more information, please email Cathy Garland at [cathy.garland@edvance360.com](mailto:cathy.garland@edvance360.com).

### 2009 Report

**2009** was an incredible year for Scholar360. We have more than **doubled in growth** and added new team members—continuing our healthy, yearly growth pattern. Some of our new clients include *The Salvation Army, Digital Media Arts College and Australian Christian College*. We also welcomed a number of influential nursing schools (*Beebe School of Nursing, Cabarrus College of Health & Sciences, Helene Fuld School of Nursing, Lakeview College of Nursing, and Our Lady of Lourdes School of Nursing*), several training programs, and other types of professional and traditional schools. We are very excited to welcome this month, the **Oncology Nursing Society** and all its members.

In 2009, we also matured in our LMS-SN feature offerings to ensure we remain one of the few vendors on the cutting-edge of educational technology. The new growth and increasing reach to more markets has led us to change the name from **Scholar360** to **Edvance360**—an exciting change that reflects our reach into all areas of education, not just colleges and universities.

Thank you for participating with us as we change the face of online education. We believe you are vital to our growth and success. If you would like more information,

### Social Networks Not Just for “Chatting”

Social-networking tools can help students become more engaged in their academics by keeping it on the forefront of their daily lives. Studies show that the more engaged students are in relationships with faculty and students, the more likely they are to learn. Students are going to be interacting through technology, so why not integrate this kind of technology into your classes?

Social-networking tools are excellent tools to enable students to chat about what they've learned in classes and communicate with their professors, define what they are learning in a wiki, blog about their experiences, share information, and collaborate. Social Networking technology provides an environment that students are already familiar with, so using it to better connect Edvance360 users in their interactive, multi-tasking, apps-ready world is a great way to increase learning.

### Lunch Webinar

Don't forget to mark your calendar for our next quarterly Lunch Webinar, which will be held April 15th at 1 PM Eastern Time. We will cover ePortfolios and how they benefit students, staff, and faculty.

To register: [www.edvance360.com/webinars/april2010](http://www.edvance360.com/webinars/april2010).

All webinars are free and open to both staff and instructors. Participants will learn how to use new Edvance360 tools, how to be more

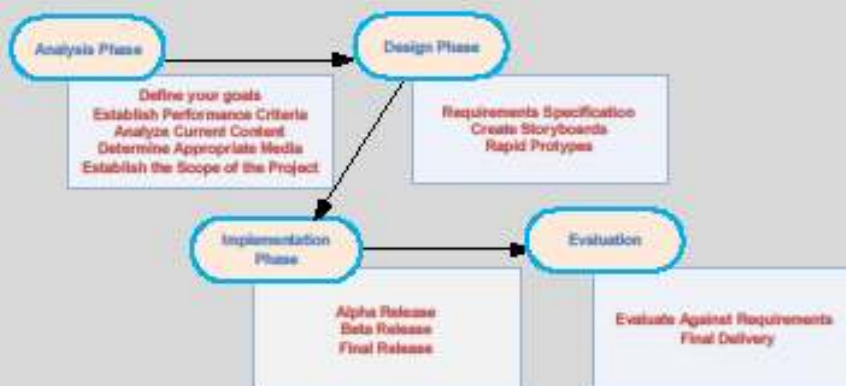

# Cost Effective Custom e-Learning Digital Content

## Are you looking to ...

- Convert or upgrade your existing course content to an e-Learning solution
- Reverse-engineering of a current e-Learning solution
- Create an interactive job-aid, instructional aid or manual
- Supplement resources, with audio, video or a simulation to help with a certain aspect of an e-Learning project

## We Work With You Every Step of the Way

### Advantages

- Consistency
- Cost Savings
- Time Savings
- Learner Convenience and Flexibility
- Expanded Audience
- Faster Absorption of Information
- Instant Feedback

Interactive Animation Flash-based Audio & Video

- High quality services
- Streamline process - saves time and money
- Samples upon request
- Specialists - both in-house and within our network - that work with you to produce an interactive, engaging solution
