

# How to Embed Audio Files

## Embedding an Audio File

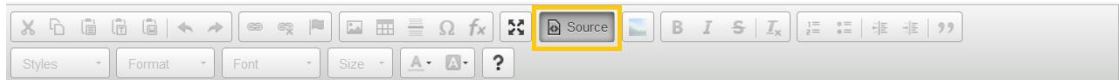

1. Navigate to the **Repository**
2. **Upload** Audio File
3. **Right-Click** on Audio File Title
4. Select **Copy Link Location** or **Copy Link** (wording varies depending on Internet browser)

5. Navigate to Course, **Lesson** where you want to embed the Audio File
6. Select Content Type **Text/HTML Block**

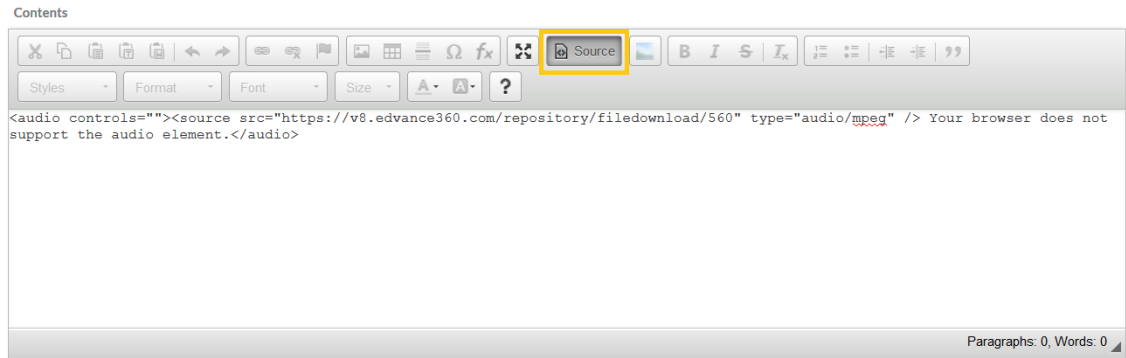

## QuickStart Guide: How to Embed Audio File

7. Select **Source**. This toggles the editor mode so you can use HTML

8. **Paste** Embed Code. The orange text is the link copied from Step 4

```
<audio controls=""><source src="https://v8.edvance360.com/repository/filedownload/560" type="audio/mpeg" /> Your browser does not support the audio element.</audio>
```

9. Select **Publish**
10. Select **Save**

The audio file controls display on the page with the lesson item

### Embedded Audio File
